

# Hot Deals module instructions

## Main functions

- creation of pricing rules including:
  - time limit from when to when the promotion should run
  - quantity limitation after which the promotion is not displayed
  - convenient widgets located in many places
  - displaying specific promotions by category with sorting
- availability of a widget to embed a promotion in a selected place of the shop template
- convenient widgets in multiple locations
- styling of modules through changes in the administration
- additional top block specifying the main promotion
- available widget with specified promotions at the bottom of the page

## Requirements

- PrestaShop minimum version: 1.7.4
- Minimum version of PHP 7.1

## Addons installation

Follow the instructions below:

1. Log into your admin panel in PrestaShop.
2. Click Modules > Catalogue and type "Hot deals" into the search engine.
3. Once you have found the payment module, click Install

## Installation of the plug-in from the zip package
